

**Data Table**

Age	Percentage	Number of pupils
8 years old	20%	$\frac{20}{100} \times 10 = 2$
9 years old		
10 years old		
11 years old		

2. Ask pupils to fill in the data table using the data from the given pie chart.
3. Assist pupils and ensure that each group is able to complete the data table correctly.
4. Draw pupils' attention on the terms frequency, mode, maximum and minimum values, range and mean. Let them discuss and explain their understanding about these terms.
5. Ask pupils to look at their data table and guide them to find out the frequency, mode, maximum and minimum values, range and mean.
6. Request pupils to state the answer. Provide responses and discuss.
