LET'S WRAP UP

1 Fill in the blanks. Determine the formula for finding the average.

$$\text{Average} = \frac{\text{Total of quantity}}{\square}$$

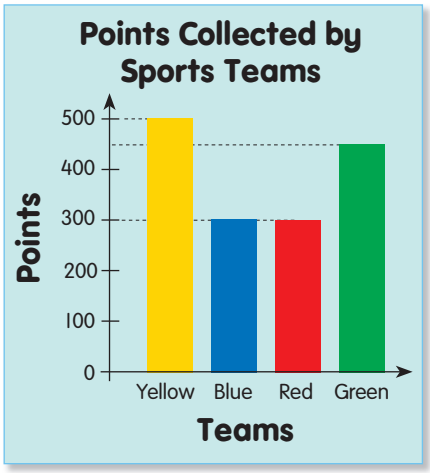
2 Sarah has 20 stamps, Siew Boon has 25 stamps, and Devi has 45 stamps. State the average number of stamps that they have.

3 Calculate the average of the following.
(a) 206 mℓ, 210 mℓ and 280 mℓ
(b) 37 kg, 57 kg and 83 kg
(c) RM125, RM235 and RM456

4 Find the average number of books that Wati read in a month.

Month	Number of books read
June	25
July	30
August	38

5 The bar graph below shows the points collected by 4 teams in the school sports.



(a) What is the mode?
(b) What is the highest point collected?
(c) What is the lowest point collected?
(d) What is the difference in points collected between the Blue Team and the Green Team?
(e) What is the average point collected by the Blue, Red and the Green Teams?
